

Lectures

911 for Quilters

This presentation is packed with quilt making information Cheryl has learned over decades. In less than an hour, she teaches how to avoid and correct quilting mistakes and provides as many quilting tips and tricks as possible. During this presentation, you will most likely be able to hear a pin drop in the room, the audience is listening. When questioned afterwards, everyone from novice to expert quilters has normally learned something new and beneficial.

Her goal is to inspire your personal creative spark, add educational value for your personal quilting success, make your quilting journey easier, and most importantly bring a smile to your day.

Here's something to smile about, every person in the audience will receive a gift. And, for making note-taking easier an outline of the information presented will be made available.

Rapid-Fire HSTs and Trunk Show

This presentation has a more personal message about Cheryl's quilting journey and how 576 identical HSTs inspired her invention the HSTSystem (Half-Square Triangle Stencil System). You'll learn how the system works and the multiple applications where it can be used.

There's a short History 101 segment. And the best part, this presentation is packed with show and tell. You'll get to see her quilts and hear fun quilt stories involving her family and friends that is sure to bring a smile or out-loud laughter to your day.

Classes or Retreats

Any of Cheryl's quilt designs available at <https://quiltnaflash.com/products/> can be a class or a retreat class project for your group.

Other Services

Scissor Sharpening—if your facility has an area, small room or hallway, away from lecture room, at your request, we can have your scissors and most pinking shears sharpened and ready to take home after the event. (Less than 6", \$7, 6" or longer \$9, specialty: pinking and curved \$10)

Contact Information

Cheryl is available for classes, retreats, and quest speaker events! You may contact her at

512-915-7555 or email at info@quiltnaflash.com.

Meet the Inventor

Cheryl Matzen is an award-winning quilter, lecturer, teacher, quilt designer, and the inventor of a revolutionary set of quilting tools, the

HSTSystem. After retiring from the fast-paced high-tech industry and raising her family, Cheryl started her own business, Quilt-N-A-Flash; an uncharted effort for her stirred by her real passion, quilting. Her journey into the art of quilting was inspired by her grandmother at the age of eight. Today, many decades and quilts later, her passion for quilt making is still going strong. Her mission is to keep the art and legacy of quilting alive and thriving by inspiring people of all ages to learn how to or continue quilting!

In competitive quilt shows, her many ribbons include: a NACQJ Award, Best in Show, Viewer's Choice, Best Theme Quilt, and multiple First Place awards. She enjoys lecturing and teaching, and has been a guest speaker and taught at many quilt groups and quilt shows across America.
