

HST SYSTEM
*Half-Square Triangle
Stencil System*

The Quilt-N-A Flash HSTSystem

**We just might change the way
you make quilts forever!**

Do you love to quilt? And, would you like to speed up the process of making hundreds of half square triangles without giving up quality and accuracy? Well, Quilt-N-A-Flash is offering a revolutionary set of stencils that is on track to change the quilting craft much like the rotary cutter changed the process of cutting fabric with scissors.

Whether you are a quilting expert or a beginner, you can create very accurate half square triangles, and much more, in record time using the HSTSystem method. This very fun and easy method is **faster than** the *Bias Strip* method, the popular *8 at a time* method, and there's no paper tearing!
